

Midair collision avoidance safety event

This class will identify safety issues facing military and general aviation pilots flying in the Morongo Basin area and will educate general aviation pilots on the different types of military special use airspace that they will encounter when flying in the local area.

Directions: Phase 1 Room 119

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
